

Dow Jones Industrial Average (DJI)

Time Frame: 30 minutes

Today's Description

With red arrows is presented our prediction for today!

For this morning another downward move should develop. 9.650 is a good support for this. After that some fluctuations are to be expected between 9.650 and 9.720 (9.780). Sell more if manages to break support.

Dow Jones Industrial Average (DJI)

Time Frame: DAY

Today's Description

With red arrows is presented our prediction for next days!

9.850 seems to be some sort of top right now. Only above it reconsider LONG trades with 10.000 target. Under this level (9.850), consider some sort of accumulation (between 9.650-9.850). So, SELL near the top and BUY near the bottom. Your sell order from 9.850 should have been close yesterday at 9.660 like we anticipated!
